## Officer Roundtable!

### Discussion Questions

---

### **Energize**

1. What do your fellow student leaders currently need to feel energized and excited? How can we help meet that need through a team bonding activity?
2. What messages do our students need most during this time of year? How can we best spread that message this semester?
3. Are your staff members feeling drained and/or exhausted? What activities could help them to feel reenergized and appreciated?

### **Create**

1. First semester activities are typically based on excitement and spirit. How would you alter second semester activities to meet the current needs of your students?
2. What new traditions would you like to create for students this semester? How would they differ from your first semester activities?
3. What is one new “spirit-based” activity idea you learned about during a breakout session? How could you adapt it to meet the needs of your campus?

### **Plan (3-2-1 Planning)**

*With the help of your fellow officers, brainstorm and create:*

- 3 Moments of encouragement to plan for students this semester.*
- 2 Clubs and/or organizations you'd love to collaborate with.*
- 1 Large goal you have as student body officers.*
